### **GreenLine Systems Adds Maritime Industry Expert to Management Team**

*Peggy Rutledge, Former Director of Commercial and Regulatory Services for Hapag-Lloyd joins GreenLine as Vice President of Maritime Solutions*

Arlington, VA / January 24, 2006 --- GreenLine Systems Inc. is pleased to announce that Ms. Peggy Rutledge, has joined the executive team as Vice President of Maritime Solutions. Prior to joining GreenLine, Ms. Rutledge held the position of Director, Commercial and Regulatory Services with Hapag-Lloyd (America) Inc. where she led the Documentation, Commercial and Regulatory Affairs teams in the North American region. With previous management roles at Columbus Line (Hamburg-Sud) and A.P. Moller/Maersk, Ms. Rutledge brings over 25 years of experience and insight into ocean carrier operations, IT systems and business practices.

"Joining GreenLine provides me with the opportunity to be part of the leading team in developing innovative Supply Chain Risk Management solutions." said Ms. Rutledge, "I believe that my diverse background in addressing the operational and regulatory issues facing the maritime shipping community will be an excellent fit in assisting GreenLine's public and private sector clients establish effective approaches to managing the challenges of minimizing risk while maximizing efficiencies in an increasingly complex supply chain environment".

As a recognized maritime industry expert, Ms. Rutledge has served as a representative to numerous Customs – Trade working groups addressing the implementation of new information technology and business practices in both the United States and Canada. Ms. Rutledge has also served as the Executive Chair and Ocean Chair of the Customs Electronic Systems Action Committee (CESAC). CESAC is the leading forum for discussions between the international transportation sectors and U.S. Customs and Border Protection; dealing with the technical and procedural issues in the ongoing operations of the Automated Commercial System (ACS), and the Automated Manifest System (AMS), as well as addressing border security and facilitation issues impacting other US government agencies such as US Census Foreign Trade Division, FDA, and APHIS.

In 2004, Ms. Rutledge was appointed by the United States Treasury Secretary and the Commissioner of Customs to serve on the 9<sup>th</sup> round of the Departmental Advisory Committee on Commercial Operations of Customs and Border Protection, (COAC). In this role she serves as a senior industry advisor to the US Department of Homeland Security and US Customs and Border Protection on policy and technical issues related to supply chain security and trade facilitation.

"We are very pleased that Ms. Rutledge has chosen to join the GreenLine team," said Noah Rosenkrantz, CEO of GreenLine Systems. "Ms. Rutledge brings a uniquely broad and detailed understanding of the operational, information technology and regulatory issues facing ocean carriers and their customers today. We are certain that our clients will derive significant benefits from her expertise."
